## EDUCATION:

**Leonardo da Vinci University Center (UNIASSELVI)** 2025 - 2028
Bachelor's in Software Engineering – 4th semester

**Relevant Coursework:** Data Structures, Object-Oriented Programming (OOP), Object-Oriented Analysis, Software Engineering & Design, Web Systems Development, Databases, Computer Architecture, Programming Logic & Techniques, Calculus.

## PROFESSIONAL EXPERIENCE:

**Software Engineering Intern – CMOC** Mar 2025 - Present

- Spearheaded the end-to-end development of the enterprise system 'Management of Schedules and Adherence' (Power Apps & Power Automate) to address maintenance planning (PPCM) bottlenecks, eliminating manual logging and accelerating work-order approvals.
- Automated critical control reports and closing workflows using Python, Power Automate, and Excel/VBA, saving weekly operational hours and mitigating human error in data consolidation.
- Engineered executive CAPEX and budget dashboards in Power BI using advanced DAX and Power Query, centralizing financial KPIs and providing real-time visibility for leadership decisions.
- Deployed an automated cross-departmental cost-center synchronization pipeline, guaranteeing fiscal consistency and data integrity across multiple teams.

**Young Apprentice – EquinoxGold** 2024 - 2025

- Supported administrative workflows and multidisciplinary operational teams within an industrial mining environment, consolidating process tracking, strict regulatory documentation, and collaborative practices.

## FREELANCE PROJECTS:

**Appointment Booking Platform – Atual Estilo Barbershop** (atualestilo.com) – Drove a **46% increase in customer volume** and handled **30+ automated daily appointments**, drastically reducing manual team overhead and missed bookings, by architecting and deploying a modern full-stack web application with **React**, **PHP** backend, and hosted **SQL** database in production.

**Architecture Showcase & Lead Generation Platform** (portifolio-milena.vercel.app) – Streamlined **lead intake turnaround time by 100%** and accelerated proposal closings, as measured by client inquiry response rates, by building a high-impact interactive portfolio (JavaScript, Tailwind CSS, GSAP) integrated with an automated spreadsheet lead-tracking pipeline.

**Interactive 3D Engineering Portfolio** (schaide-nunesdev.vercel.app) – Delivered **steady 60 FPS rendering** and **95+ Google Lighthouse scores**, as measured by Core Web Vitals and interactive benchmarks, by architecting a responsive web application in React 19, TypeScript, Three.js, and Tailwind CSS with 3D space environments and dynamic localized delivery.

## TECHNICAL SKILLS:

**Frontend:** React | TypeScript | JavaScript | Three.js | Tailwind CSS | GSAP | HTML | CSS | Vite

**Backend:** Node.js | Express | NestJS | Python | FastAPI | Django | PostgreSQL | SQL | NoSQL | Docker | AWS (Basic)

**AI & Data:** RAG (Retrieval-Augmented Generation) | Vector Databases (Qdrant, pgvector, Weaviate, FAISS) | Embeddings | Document Chunking | Semantic Search | AI-Assisted TDD

**Tools & Automation:** Git | GitHub | Power BI | Power Apps | Power Automate | Excel

**Competencies:** TDD (Test-Driven Development) | OOP | Process Automation | UI/UX | Design Patterns | Agile Methodologies | RESTful Architecture
